Restorative Nursing Care Assists Residents

Did you know that Restorative Nursing is a program designed to assist residents in promoting their ability to function at their highest level? It provides interventions that promote the resident's ability to live as independently as possible while providing activities that promote psychosocial, physical and mental well-being. SMC's restorative nursing program is led by Deanne Rasmussen. She works hard to help residents stay active, promoting independence regardless of the resident's level of function.

Making The Difference!

♥ CORTNEY KLEFFNER

HOME TOWN Fairbury, NE

JOB OVERVIEW I have worked at SMC as an Occupational Therapist for 8 years. I work with individuals of all ages to improve quality of life. Some things I do are help people get a different wheelchair; find manageable ways to do everyday tasks like managing medications, dressing, showering, etc. I also work with individuals on strengthening/positioning after a stroke or an injury.

BEST PART OF THE JOB

Learning the personalities and stories of the residents and staff. Making a difference in residents' lives.

WHEN DO YOU SEE RESIDENTS SMILE THE MOST?

Any time I can do treatment outside, this usually results in smiles! I see lots of smiles when I walk by the Morning Movers activity too!

FAMILY My husband, Mike, and I have been married for 17 years. We have a 13 year old boy, Logan, and a 10 year old girl, Alana. Our days are filled with dance classes and other sports!
